Swimmers are notified by a Doping Control Chaperone and are required to sign a notification form. A Doping Control Chaperone will accompany the swimmer until released by the Doping Control Officer (DCO). Upon notification of testing and if necessary, the athlete may notify the DCO if they are competing in another event in the same session. In such cases, the DCO may direct that testing be carried out later in the session, provided a Chaperone accompanies and/or observes the Athlete at all times and until such time as the Athlete reports back to the Doping Control Station for testing. Photo identification is required for doping control. Coaches are asked to instruct athletes to bring photo identification to competitions (i.e. driver's license, school identification, passport, etc.)

Doping Control Information

Athletes are encouraged to take the following steps:

- Check the Global DRO (www.globaldro.com/) to determine if any prescription or over-the-counter medications or treatments are banned by the WADA Prohibited List.
- Review medical exemptions requirements (www.cces.ca/medical) if you require the use of a banned medication for a legitimate medical reason.
- Do not use supplements, or take precautions prior to doing so. Supplement products cannot be verified by the CCES or in the Global DRO. A lack of industry and government regulation makes it impossible to confirm their ingredients. Read more: <http://www.cces.ca/supplements>
- Review the steps of the doping control sample collection procedures: <http://cces.ca/sample-collection-procedures>
